About Me

Passionate web development student with a strong foundation in HTML, CSS, JavaScript with frameworks like React, Next, Tailwind. Eager to apply my skills in a real-world setting and contribute to innovative web projects. Good problem-solving abilities and a commitment to deliver results.

Experience

- 2023 - 2025
Webdevelopment (ongoing studies)
Yrgo

- 2021 - 2023
AWS Cloud development
Jensen Yrkeshögskola

During my studies, I gained a foundation in cloud development and IT infrastructure. The program covered core concepts in Java programming, SQL databases.

- **Trainee - 6 months**
Volvo Cars IDPS/R&D

During my tenure as a trainee at Volvo Cars, I actively contributed to an agile team specialized in React. Together, we developed an application designed for generating status reports on diverse attributes in the cars.

- 2013 - 2021
Purchase and Sales
Fruktcentralen AB

The role involved selling the company's products and maintaining a good relationship with existing customers, including purchasing where I had responsibility for a department. The areas I focused heavily on were customer service, and customer satisfaction. I was also involved in warehouse work and distribution, where I assisted in packing goods and planning routes.

I was also part of a weekend schedule where I had significant responsibility for the company, staff, and customers.
